### Baptist Church Set for Today Groundbreaking for Crenshaw

Began, as a mission of the Narbonne Ave. Church in Lomita in the fall of 1951, the church membership voted last September to organize a Baptist church. At the organizational meeting, Rev. Harvey A. Meetings of the new group started in the home of Mr. and Mrs. Omer R. Clements, 4227 W. 186th St. The group began with a small number of children attending Sunday School classes in the Clements home.

Plans Approved Plans which have been approved by the congregation and will be submitted to the city for approval call for a church auditorium which will accommodate 200 worshippers.

### Jaycee Speaker Demonstrates Microwave Relay

A discussion and demonstration of microwave radio relay—the system employed to bring live television shows here from the east—was given here Thursday evening at a dinner program of the Torrance Junior Chamber of Commerce.

C. Corbin Devalon, a representative of the Pacific Telephone and Telegraph Co., set up a miniature microwave relay station in the American Legion hall and graphically demonstrated the properties of the microwaves which are used to transmit six television shows or 3600 telephone conversations over one relay system.

Devalon was introduced by program chairman Bert Lamb. The speaker demonstrated how like light waves, the microwave beams could be reflected but at the super high frequencies are not troubled by rain, snow, fog, static, and most man-made interferences.

Many other scientific facts about microwaves were demonstrated and discussed in simplified terms by the speaker.
